TERMS & CONDITIONS

SUPPLEMENTAL INFORMATION

A supplemental sheet will be available sale day with up-to-date performance information and scrotal measurements. For a copy of this information prior to the sale, please contact Bob Rylaarsdam. This sheet and any announcements from the block will take precedence over the printed material in the sale book.

BUYERS UNABLE TO ATTEND THE SALE

Your sight unseen purchase is guaranteed. You may contact Bob Rylaarsdam, Shaydn Wassmuth, Sydney or any of the sale representatives far enough in advance to enable them to assist you in purchasing a bull. Your bid will be handled in a most confident manner. The Camas Prairie Angus Ranch guarantees that if you do not like your bull upon delivery, we will take him back!

PICK-UP DISCOUNT

We are offering \$100 discount off the selling price if you take possession of your bull directly after the auction.

DISCLAIMER

The Lewiston Livestock Market and the Camas Prairie Angus Ranch assume no liability for accidents or injury that may occur. Attend the sale at your own risk.

FIRST YEAR BREEDING

(NOT FOR FEMALES GUARANTEE)

All bulls selling for \$2500 or more will be covered 50% by the seller if they are injured during their first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls. 50% of the value of the injured bull, minus one-half salvage value, will be given as credit in a future sale or toward a replacement bull if one is available. Salvage value, if any, will be split equally between the seller and the buyer. All insured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2023.

EXAMPLE: A \$4000 bull is injured and will not heal. A credit of \$2000 minus one-half any salvage value will be given to the buyer.

EXAMPLE: A \$2500 bull is injured and will not heal. A credit of \$1250 minus one-half of any salvage value will be given to the buyer.

EXAMPLE: An \$1800 bull is injured and will not heal. No credit is given. Buyer retains all salvage value.

DELIVERY

Camas Prairie Angus Ranch offers free delivery on the first 500 miles. Any additional miles the buyer will pay for at actual cost. We will try our utmost to deliver the bulls to your ranch; however, at times we may have to deliver him to a central point. Central points for delivery will include auction barns, vet clinics and ranches that offer to serve as delivery points. We will be in contact with you to establish delivery arrangements. You must make arrangements for delivery of your bulls BEFORE leaving the sale if you wish to have your bull(s) delivered. A Camas Prairie Angus Ranch representative will be in the LLM office to help you make those arrangements. (\$100 off per bull if you take your bull(s) home from the sale).

Welcome

...from CAMAS PRAIRIE ANGUS RANCH

It is with great pleasure that we bring you our 37th Annual Performance Bull Sale, that has now become a production sale. I said in last year's letter "We have survived many different issues in these 36 years, but to have survived 2020, and the drought of 2021 might top them all!" 2022 said "Hold My Beer"!! We had a spring and summer that I hope can never be matched!! It started out with a really wet spring, and we didn't get any spring crops planted (we did have a good hay crop and LOTS of grass). Then came June 26th!!! Ruby and I were involved in an auto accident (driving a large pickup saved our lives). Then in July our barn (full of hay) burned to the ground at Lewiston. Then in September, Ruby fell and fractured 2 vertebrae. Luckily 2 surgeries fixed her up!!!

It looks like the cattle market is starting out strong this year, and should only go higher!! Once again, as I have always said and practiced ourselves, invest in the best genetics you can afford. That has always been our motto for the last 46 years.

Once again we feel we have the deepest quality bulls we have ever raised! We have sorted the bulls many times for quality, structure and soundness, and disposition. We want only the best to be offered for your appraisal. We feed the bulls so they are in optimal shape, but not too fat.

Once again we are pleased to have our niece Sydney join us to offer her bull crop as well. Her program was based on our breeding, so they fit well with our program. They too have been fed with our bulls.

We also have a couple bulls in the offering from my cousins, the Roosma family who have bought their herd bulls from CPAR.

We still offer the first breeding season guarantee for all the bulls selling. The bulls have all passed a Breeding Soundness Evaluation and semen test as well.

The bulls will be delivered starting April 1st, unless you want to take advantage of saving \$100 off of each bull picked up from the sale. If you are unable to attend the sale or need help with your selections we will be glad to help you. Sight unseen purchases must meet your satisfaction upon delivery or we will take them back.

Thank you for your interest and continued support of our program. If you have any questions feel free to talk to Bob, Mason, Sydney, or Carl. We all look forward to seeing you on March 2. Come take a look at the bulls, you will like what you see. Lunch will be provided and the sale starts at 12:30PM.

*Bob & Ruby
Camas Prairie Angus Ranch*

Our foreman, Mason.

Casey, our feedman and consultant, and his wife, Gail.

...from SR DIAMOND ANGUS

I want to take this opportunity to thank everyone here at this year's annual Camas Prairie Angus Ranch Bull sale. I also would like to thank my Uncle Bob and Aunt Ruby for allowing me to sell a number of different Angus bulls in the sale once again.

In 2010 I raised and showed my first registered Angus steer and fell in love with the cattle industry. I slowly began to build my herd to raise money for college, while also showing in numerous Jr. Angus shows all over the country. Many of the cattle on our operation have been part of my show string. Our goal is to pass on those superior genetics regarding quality and disposition within our operation.

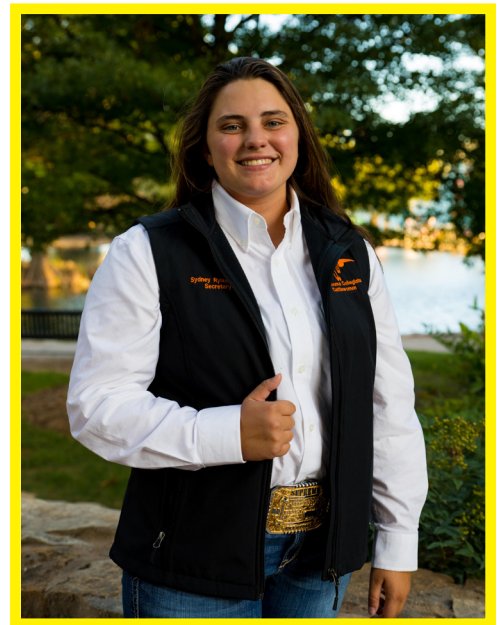

The SR Diamond Angus bulls are born and raised on the ranch until shortly after weaning. Once the calves are weaned, they eventually join the rest of the CPAR sale cattle and follow the same feeding regimen. SR Diamond Angus strives to provide healthy, high quality breeding stock for our customers.

Being involved in the cattle industry has given me opportunities I wouldn't otherwise have and allowed me to attend my dream school, Oklahoma State University. I am currently a junior majoring in Animal Science with the business option and I plan to continue to pursue a career in an industry I am passionate about. I am also currently serving as the Secretary for Oklahoma Collegiate Cattlewomen. My position in OCCW has allowed me to make many valuable connections in the cattle industry all over the nation.

I am so thankful for all the different opportunities I have had. That would not have been possible without the help of my parents or my Aunt and Uncle. If you have any questions about the SR Diamond Angus bulls please feel free to contact myself at (208)-507-1902 or Marilyn Rylaarsdam at (208)-507-2084.

Thank you,

Sydney & Marilyn Rylaarsdam
SR Diamond Angus

...and from **DOUBLE ACE ANGUS**

Double Ace Angus started as a passion to do the best as cattle producers and sell high quality bulls. Starting Double Ace Angus was dream, a dream that required a lot of perseverance. We are brothers Carl Roosma and Daniel Roosma, and we are here to overcome challenges and invest in the best genetics we can.

We would like to thank Bob and Ruby Rylaarsdam for the opportunity to sell our bulls in their sale. We would also like to thank our family and friends for their support.

Thank you to the buyers for coming out to the bull sale. If you have any questions, feel free to contact Carl Roosma at (360) 922-2244.

Thank you,

Double Ace Angus

ICONS

We have added some icons to help you quickly find bulls who fit the most common specific needs.

CALVING EASE

Bulls with this icon are bulls we would be willing to use on our first-calf heifers. He would have to have a fairly low actual birth weight and a fairly high calving ease direct.

MATERNAL

Bulls with this icon are backed by good maternal cows and should produce excellent daughters.

EMBRYO TRANSFER

Indicates a bull from one of our donor cows, Basin Camilla 4942 or SJS Blackcap Lady 1802. Both dams are known for their strong maternal traits.

PRODUCTION EPDS

Calving Ease Direct (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW), expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Scrotal Circumference EPD (SC), expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

MATERNAL EPDS

Calving Ease Maternal (CEM), is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

Maternal Milk EPD (Milk), is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

\$VALUE INDEXES

Weaned Calf Value (\$W), an index value expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk and mature cow size.

Feedlot Value (\$F), an index value expressed in dollars per head, is the expected average difference in future progeny performance for post weaning merit compared to progeny of other sires.

Grid Value (\$G), an index value expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

Beef Value (\$B), an index value expressed in dollars per head, is the expected average difference in future progeny performance for post weaning and carcass value compared to progeny of other sires.

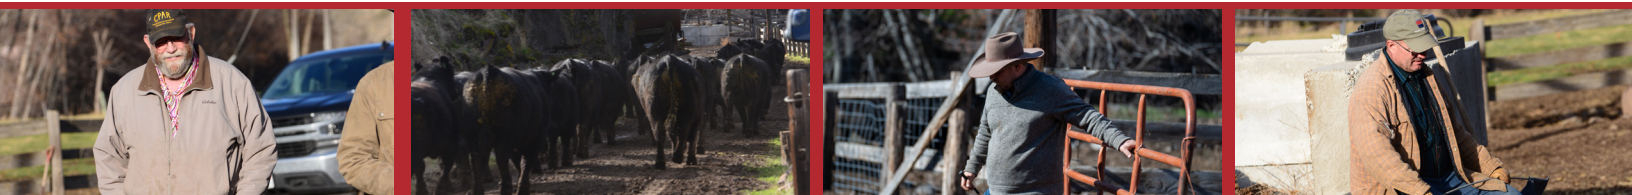

CARCASS EPDS

Carcass Weight EPD (CW), expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Fat Thickness EPD (Fat), expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

BULL DEVELOPMENT

THESE BULLS HAVE RECEIVED THE FOLLOWING VACCINATION PROTOCOL:

Birth: Type A, Prespense HM

Branding: Vision 8 Somnus, Nasalgen IP,
Type A, MultiMin

Pre-Weaning: Virashield 6, Vision 8 Somnus,
Once PMH, Clean Up

Weaning: Vision 8 Somnus, Virashield 6 VL5,
Dectomax Pour On

Yearling Vaccinations: Vision 8 Somnus, Virashield 6 VL5, Ivermectin Pour on
Semen Test Time: Foot Rot and Clean Up

PERFORMANCE PLUS VAC PROGRAM

Camas Prairie Angus Ranch has worked closely with Dr. Terry McCoy at the Animal Health Center in La Grande, OR to customize a vaccination program that not only maximizes the efficiency and production of the cowherds, but more importantly develops these bulls with an end goal of providing a sound breeding tool that will transition to multiple environments without acclimation.

FALL BULLS DEVELOPMENT

Cows calve out on dryland fall pastures & wheat stubble in Grangeville, ID, and the calves are fed 4 lbs. of oats a day while on their mothers. At turnout time (May 1) they go back to grass with their mothers and weaned July 1st. After weaning they are fed 6-8 lbs. of oats and barley along with homegrown grass/alfalfa hay. This year the bulls were developed on the ranch in Asotin, Wa.

CPAR BUYBACK PROGRAM

John Rose and Karoline Rose Bohannan are licensed and bonded order buyers in the state of Idaho and **would be interested in buying calves sired by CPAR bulls this summer.**

Load lots preferred. We are also interested in bred heifers, bred cows and replacement heifers as well as cull bulls and cows.

Karoline will rep calves on the Northern Livestock summer video sales.

NORTHERN LIVESTOCK CONSIGNMENT DEADLINES:

JUNE 2 | JULY 7 | AUGUST 4 | SEPT 1

NORTHERN LIVESTOCK SALE DATES:

JUNE 22-23 | 2023 EARLY SUMMER SPECIAL

JULY 24-26 | 2023 SUMMERTIME CLASSIC

AUGUST 21-22 | 2023 EARLY FALL PREVIEW

SEPT 18 | 2023 FALL PREMIER

JOHN ROSE:
