Welcome

Cattlemen, Cattlewomen, and Friends!

We would like to invite you to our 31st annual Bull Sale March 24, 2023 at M-Diamond Angus Ranch @1:00pm.

It's hard to believe that the Boner and Lisco families are going to host our 31st Bull Sale. Friendship and a common viewpoint about raising good functional cattle brought our two families together, but it is the support and belief in our programs from our customers that have kept us going for 31 years. We would like to thank those who have supported our programs and welcome those of you attending for the first time. The friendships we have made over the last 31 years are one of the true treasures of this business. Brad and I have had the opportunity to watch each of our families grow and are proud to have Brad's son Ryan and nephew Trent, along with my two sons Jordan and Taylor join our programs, what a blessing they have been.

The sale will be held at M-Diamond Angus Ranch. Plan to be our guests for lunch starting at 11:00am and please stay for the hospitality afterwards.

Our Registered Angus cattle are truly born and bred to thrive under the tough range conditions known to Wyoming. That being so true with the limited amount of moisture we had this summer and the sub-zero temperatures we are experiencing as we prepare for calving and the sale. The calves are raised on mama's milk, grass, and lots of Wyoming scenery. Mother Nature is allowed to take its course so we can identify those with the "Drive to Thrive." With fluctuating markets and ever changing range and weather conditions, the Angus female is and will always be at the forefront of our breeding programs. We demand our cows utilize the available forage and convert it efficiently in order to breed back on time and bring in a big, healthy calf at weaning. We also place a great deal of emphasis on the traits not measured by EPDs, fertility, fleshing ability, mothering ability, udder quality, disposition, and structural soundness.

The yearling bulls are again being fed in Hemingford, Nebraska at the Bolek Feedlot, Gary and Brad do an outstanding job of allowing the bulls to express their genetic potential, yet maintaining their functionality and soundness as range bulls. If you are in the area please feel free to stop in and take a look. Again this year will be an excellent offering of long aged (summer calved) bulls from M-Diamond Angus and an outstanding set of two year olds from Lisco Angus, these bulls are at the ranch and can be viewed anytime. Videos of the bulls should be viewable the first week in March by going to dvauctions.com, mdiamondangus.com. or liscoangus.com Catalogs can also be requested at either web-site as well. The bulls have also been PAP tested by Dr. Lanny Weddle and he would be glad to answer any of your questions at: 970-723-8314.

All the bulls in the sale have passed a breeding soundness exam, tested negative for PI BVD, and have been PAP scored. The bulls will be at M-Diamond Angus Ranch by noon on March 21, 2023 for inspection prior to the sale. If you have any questions, please feel free to call or e-mail. We look forward to seeing old friends and making new ones on March 24, 2023 at M-Diamond Angus Ranch for our 31st Annual Bull Sale.

Best Wishes!

LISCO & M DIAMOND ANGUS. CATTLE BORN & BRED WITH THE DRIVE TO THRIVE

Welcome to the Lisco/M Diamond 31st annual Annual sale.

A powerful set of cattle with exceptional maternal traits bred in for generations will sell Friday March 24th. Great females with powerful maternal traits have been the breeding goal of these programs for over 30 years. Led by a powerful group of U-2 Coalition sons, his standout son S Wrangler and Lisco Grand Finale, these bulls are truly bred with the Drive To Thrive on the high plains and Rocky Mountain region.

These bulls are stout, deep and heavy muscled with exceptional mothering traits, udder quality, feet & leg structure and docility bred into their genetic makeup for years to build a great cow herd that can also produce top quality feeder steers. Deep easy fleshing cows that take care of themselves and their calves under the same conditions you raise them in.

Please call me if I can help with your selections in any way. I will be at the sale site March 22nd through the sale.

GEORGE MARCY, MARCY LIVESTOCK SERVICES, CELL: (308) 430-2005

SALE INFORMATION

SALE TIME: 1:00 p.m.

INSPECTION: Cattle are available anytime at Bolek Feedlot in Nebraska and will be at the ranch March 22 through the sale date.

RETAINED INTEREST: All bulls selling will have 1/3 semen interest and 1/3 revenue-sharing interest retained by Lisco or M Diamond Angus. Full possession sells on all bulls.

DELIVERY/WINTERING: Yearlings will be delivered starting the first week of April. Two-year-olds and summer bulls must be taken immediately. Note the discount for bulls taken on sale day.

Delivery is free on all bulls within a 500-mile radius. For further distances please call; arrangements can be made for assistance if Lisco/M Diamond is contacted ahead of time. Deduct \$50 per bull from purchase price if you haul yourself.

SEMEN EVALUATION: Bulls have passed fertility testing and are guaranteed breeders.

PAP SCORES: All bulls have been PAP tested. *Yearling and summer bulls will have a supplement sheet of the scores sale day and we will have them up on our website as soon as possible.*

ULTRASOUND: All bulls have been ultrasounded. Results are included in the catalog.

DESIGNATED CALVING EASE: We have marked the bulls we think will work on heifers. Please use your own judgment.

** Should work on all heifers

* Should work on larger heifers

DESIGNATED PATHFINDER: We have marked the cattle in each pedigree that qualify as Pathfinders. #

SALE DAY WEIGHT: All bull weights will be listed on a supplement sheet that will include their actual weight and scrotal measurement the week of the sale. Video of all lots, supplement sheets and sale order can be viewed at www.mdiamondangus.com or www.dvauction.com. Just click on "Sale Catalogs" and then "Lisco/M Diamond" to view.

HERD HEALTH: All cattle sell with proper health papers for interstate shipment. A rigid herd health program has been followed. All bulls sell guaranteed or tested free of all known genetic defects by DNA test or pedigree. All bulls tested negative for PI BVD.

TERMS AND CONDITIONS: These cattle sell under the terms and conditions of the American Angus Association.

Catalog designed by:

VISIT WWW.DVAUCTION.COM AND REGISTER!

1. Create and account at www.dvauction.com under the "create new account" tab.
2. Apply for bidding by clicking "apply for bidding" in the upper left corner, at least 24 hours prior to the auction.
3. Tune into the sale and make your purchases.

FIRST YEAR BREEDING SEASON GUARANTEE

Lisco/M Diamond will cover 50 percent of the value of bulls selling for \$3,000 or more if they are injured during their first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls.

Fifty percent of the value of the injured bull, minus one-half salvage value, will be given as credit in a following sale or toward a replacement bull if one is available. Salvage value, if any, will be split equally between Lisco/M Diamond and the buyer. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by Sept. 1, 2023.

Example 1: A \$5,000 bull is injured and will not heal. A credit of \$2,500 minus one-half of any salvage value will be given to the buyer.

Example 2: A \$3,000 bull is injured and will not heal. A credit of \$1,500 minus one-half of any salvage value will be given to the buyer.

Example 3: A \$2,900 bull is injured and will not heal. No credit is given. Buyer retains all salvage value.

THIS GUARANTEE DOES NOT COVER MISMANAGEMENT OR NEGLIGENCE.

43 SONS & GRANDSONS SELL!

Coalition's ability to sire like phenotype is uncanny. The sons he sires are consistently good hiped, expressively muscled, correct in their structure and rich in Angus breed character. More impactful than his sons will be the legacy he leaves through his daughters. With the backing of his picturesque and powerful dam, Erelite 109Z, he consistently passes on her exquisite phenotype, refined teats, and well attached udder. Our Coalition daughters are the kind to build a program around. They are herd builders, carrying unparalleled maternal strength with enough muscle, power, and phenotype to thrive across all facets of the beef industry.

S Wrangler 830 is a calving ease Coalition son with a dominating phenotypic presence and a pedigree stacked with performance and maternal patriarchs. Wrangler's dam is double bred to the popular Genex sire, Chisum, who consistently sires muscle, mass and power, while enhancing maternal production. Wrangler was retained from his calf crop by Spickler South, and an interest was later sold to M Diamond Angus, WY. He has been used successfully on a large number of both registered and commercial heifers. Wrangler himself is a very good structured, exceptionally quiet bull, with a poise and presence about himself that further separates him as an elite herd bull. He is seeing heavy use at both M Diamond and Spickler South. The consistency and quality he sired in his first calf crop has him marked early as an elite producing sire. Leased to Beef 360. **7 SONS SELL!**

Calving Ease: Dam's Production: 8 @ 99

A long complete made Cowboy Up Grandson. Out of a very productive 11 year old Ole Daughter.

WYOMING TESTED TOUGH.

Our registered Angus cattle truly are born and bred to THRIVE under the tough range conditions known to Wyoming.

Calves are raised on mama's milk, grass, and lots of Wyoming scenery. Mother Nature is allowed to take its course so we can identify those individuals with the DRIVE to THRIVE.

ET 530 Calving Ease: Dam's Production: 7 @ 107

This set of ET calves have been a lot of fun to watch grow. Their Dam 83-0 is a cow who earned her way to getting flushed the hard way. She is a Pathfinder cow who records 7@107 for weaning and 3 @ 129 for IMF. After getting a few of her daughters and grand-daughters in production and watching them produce as well we decided to flush her. This flush by the great female producing sire Coalition has produced just what we anticipated. These bulls are long made bulls with sufficient rib, a long hip, thick top, and lots of bone. Maternally these bulls should be as good as anything you can find. Make sure to look this set of brothers up on sale day.

Here is an outstanding heifer bull with an outcross pedigree who I think has a promising future. The bull has an extremely attractive muscle pattern that catches your eye. He combines muscle and calving ease in a package that very few bulls do. Maternally this bull should be second to none. His dam is an easy keeping, great uddered cow who continues to produce at 11 years old and looks outstanding. She records 8 calves at 96 for birth ratio.

Calving Ease: Dam's Production: 4 @ 105

This set of flush brothers are full brothers to the two top selling summer bulls from 2022. This flush by Recharge has far exceeded our expectations. These bulls are thick and deep with a ton of muscle in a structurally correct package. We think that the females out of this set of bulls will be second to none and look forward to what the future holds. Recharge is a full brother to Resource and Renown and in our opinion is possibly the best bull of the flush. He is an extremely long made bull with plenty of muscle, rib, and capacity. His structure is as good as any bull we have laid eyes on and he moves extremely well.

Calving Ease: Dam's Production: 1 @ 108

Another outcross pedigree who catches your eye and is very easy look at, he is put together extremely well. He has an outstanding front third, great middle, and a good hip. His dam is a commercial cattleman's dream; weaning off this bull well north of 50% of her body weight.

Lot 51 and his dam at time of weaning.

This bull was a top performer out of a first class heifer through weaning time. He is also a top carcass bull for both ribeye and IMF. His dam is a product of a very successful flush that produced some outstanding maternal cattle. She was my pick of the flush and did an outstanding job with this calf. Combining her with Grand Finale makes this calf a maternal machine. The females out of this bull are going to be special.

A tremendous opportunity here to own extremely good maternal and calving ease genetics out of the great 109Z. These bulls will leave you with the kind of females that make you money year after year. Don't miss this great opportunity toward the end of the sale!

U2 ERELITE 109Z DAM TO LOTS 98, 99, 100, & 101

The dam of "Coalition" is a unique blend of massive power and exquisite femininity along with an udder quality and structural soundness that is beyond compare. She is touted by U2 Ranch as "the most influential cow to walk their pastures". We agree! U2 Erelite 109Z epitomizes what we envision as the "perfect" angus cow. 109Z has natural progeny weaning and yearling ratios of 4@109 and 3@113 respectively.

We have been looking for this cow ever since we entered the registered Angus business 30 years ago. When the opportunity came to own her, we were determined to bring her to Wyoming thus making her the \$140,000 high seller of the historic U2 Ranch Complete Dispersion. We are offering 4 sons by KG Justified 3023 in our 2023 sale. Stay tuned for many more progeny from multiple matings in upcoming sales!

Co-owned with Spickler Ranch South.

This set of flush brothers are full brothers to the two top selling summer bulls from 2022. This flush by Recharge has far exceeded our expectations. These bulls are thick and deep with a ton of muscle in a structurally correct package. We think that the females out of this set of bulls will be second to none and look forward to what the future holds. Recharge is a full brother to Resource and Renown and in our opinion is possibly the best bull of the flush. He is an extremely long made bull with plenty of muscle, rib, and capacity. His structure is as good as any bull we have laid eyes on and he moves extremely well.

This IMAX calf has a thick top, a good hip, and plenty of rib. His dam came from the ET program and shows the part. A great uddered, feminine cow, with an excellent phenotype.

Another stout IMAX calf out of an exceptional Cornerstone dam. The cow behind this bull is extremely feminine with an outstanding udder.

SALE LOCATION | M DIAMOND ANGUS RANCH

602 COLE CREEK RD | GLENROCK, WV 82637

***LOCATION CAN NOT BE ACCESSED FROM I-25
PLEASE SEE DIRECTIONS BELOW***

FROM CASPER

From the east side of Casper (Hat Six Rd) get on US Highway 20-26 (old Glenrock Highway). Head east on the old Glenrock Hwy for approximately 13 miles. Turn left on County Road 22 (aka Cole Creek Rd) and go north for 6 miles. Turn right at the "Boner" ranch sign and follow road into ranch and sale facility.

FROM GLENROCK

From the 4-way stop intersection in Glenrock head west towards Casper on 20-26 (old Glenrock Highway) for approximately 5.5 miles. Turn right on County Road 22 (aka Cole Creek Rd). Go north for 6 miles. Turn right at the "Boner" ranch sign and follow road into ranch and sale facility.

NOTE - You will pass the turn off to Brad and Laurie Boner's house at 3 miles - keep going north for 3 more miles.

DO NOT USE GOOGLE MAPS FOR DIRECTIONS. YOU WILL BE LOST!!

2023 GROW SAFE

WHY FEED EFFICIENCY DATA?

At M Diamond Angus we believe the most economically relevant trait in the beef industry is feed efficiency. Feed efficiency is described as being moderately heritable. It is expected to have a 25% to 30% chance of being passed on to the next generation. Therefore, we believe that we need to put selection pressure on this trait. By doing so we can create more feed efficient cattle. For this reason we decided that we needed to find a way to obtain feed efficiency data on the genetics that we are providing our customers.

THE FEED TEST EXPLAINED:

The summer bulls were tested using a GrowSafe testing facility for 90 days. A growing diet was fed, consisting of cracked corn, ground alfalfa hay, corn silage, and protein supplement. The ration was formulated for an estimated daily gain of 3.25 lb/day. Individual weight gain and feed intakes were collected on each bull. The following calculations were measured:

Average Daily Gain (ADG) – Total weight gain divided by 90 days.

RFI – Residual Feed Intake. RFI is the preferred method of evaluating efficiency in seedstock animals, because it is an efficiency measurement that adjusts for the size of the animal. Using traditional feed efficiency measurements (to select cattle) would cause you to indirectly select for larger animal size because larger frame animals tend to be more efficient. RFI is a feed efficiency index independent of animal size. RFI numbers refer to the comparison between actual feed intake vs. expected feed intake (based on the ration fed and animal size). A negative number is preferable, indicating a more efficient animal that consumed less feed than predicted. Positive RFI indicate a less efficient animal that consumed more feed than expected.

Feed:Gain – A measurement of feed efficiency, listed as the lbs of feed required to achieve 1 lb of weight gain for each bull. This is calculated using the daily feed intake and ADG for each bull. A lower number indicates a more efficient bull (less feed required to achieve weight gain).

SUMMER BULLS GROWSAFE TEST RESULTS:

LOT #	RANCH TAG	ADG	RFI	FEED TO 1 LB. OF GAIN	TEST RANK
7	184-1	5.02	7.10	9.23	9
