Welcome

Cattlemen, Cattlewomen, and Friends!

We would like to invite you to our 32nd annual Bull Sale March 22, 2024, at 1:00pm. The sale will be held at M Diamond Angus Ranch in Glenrock Wyoming (see directions). Lunch will be served starting at 11:00am. So please join us for the hospitality before and after the sale.

It's hard to believe it has been 32 years. Friendship and a common viewpoint about raising good functional cattle brought our two families together, but it is the support and belief in our programs from our customers that have kept us rolling forward for 32 years. We would like to thank those who have supported our programs and welcome those of you attending for the first time. The friendships we have made over the last 32 years are the true treasures of this business. Brad and I have had the opportunity to watch each of our families grow and are proud to have them on the team. We couldn't do it without them!

Our Registered Angus cattle are truly Born and Bred to Thrive under our tough range conditions known to Wyoming. That being true with the brutal winter we had this last year. The calves are raised on mama's milk, grass and lots of Wyoming scenery. Mother nature is allowed to take its course so we can identify those with the "Drive to Thrive". With market demands and ever-changing range and weather conditions, the Angus female will always be at the forefront of our breeding programs. Grab an Angus cows' tail and she will pull you through about anything. We demand our cows utilize the available forage and convert it efficiently to breed back on time and bring in a big, healthy calf at weaning. We also place a great deal of emphasis on the traits not measured by EPD's, fertility, fleshing ability, mothering ability, udder quality, and structural correctness.

This year has brought some change and we had to adapt to find a new location to feed our bulls. The bulls are being fed in Wheatland Wyoming at Meriweather Farms under the care of Marty Shepard. If you are in the area, please stop by and have a look. Once again, we will be offering some excellent long aged bulls (summer calved) from M Diamond and a group of 2-year-olds from Lisco Angus. Videos of the bulls should be available the first week in March by going to dvauctions.com, mdiamondangus.com, or liscoangus.com. The bulls will also be PAP tested by Dr. Lanny Weddle and he would be happy to answer any questions at 970-723-8314.

All the bulls in the sale have passed a breeding soundness exam, tested negative for PI BVD and have been PAP scored. The bulls will be at M Diamond Angus by noon on March 19, 2024 for inspection prior to the sale. If you have any questions please feel free to call, text or e-mail.

SALE CATALOG & SUPPLEMENTAL INFORMATION

To view the online catalog, supplement sheets for weights and scrotals, video of selected lots and sale order, go to mdiamondangus.com or liscoangus.com

LISCO & M DIAMOND ANGUS. CATTLE BORN & BRED WITH THE DRIVE TO THRIVE

SALE INFORMATION

SALE TIME: 1:00 p.m.

INSPECTION: Cattle are available anytime at Meriwether Farms in Wheatland, Wyoming and will be at the ranch March 20 through the sale date.

RETAINED INTEREST: All bulls selling will have 1/3 semen interest and 1/3 revenue-sharing interest retained by Lisco or M Diamond Angus. Full possession sells on all bulls.

DELIVERY/WINTERING: Yearlings will be delivered starting the first week of May. Two-year-olds and summer bulls must be taken immediately. Note the discount for bulls taken on sale day.

Delivery is free on all bulls within a 500-mile radius. For further distances please call; arrangements can be made for assistance if Lisco/M Diamond is contacted ahead of time. Deduct \$50 per bull from purchase price if you haul yourself.

SEMEN EVALUATION: Bulls have passed fertility testing and are guaranteed breeders.

PAP SCORES: All bulls have been PAP tested. *Yearling and summer bulls will have a supplement sheet of the scores sale day and we will have them up on our website as soon as possible.*

ULTRASOUND: All bulls have been ultrasounded. Results are included in the catalog and the numbers in the catalog are the individual ratios of the bulls.

DESIGNATED CALVING EASE: We have marked the bulls we think will work on heifers. Please use your own judgment.

** Should work on all heifers

* Should work on larger heifers

DESIGNATED PATHFINDER: We have marked the cattle in each pedigree that qualify as Pathfinders. #

SALE DAY WEIGHT: All bull weights will be listed on a supplement sheet that will include their actual weight and scrotal measurement the week of the sale. Video of all lots, supplement sheets and sale order can be viewed at www.mdiamondangus.com or www.dvauction.com. Just click on "Sale Catalogs" and then "Lisco/M Diamond" to view.

HERD HEALTH: All cattle sell with proper health papers for interstate shipment. A rigid herd health program has been followed. All bulls sell guaranteed or tested free of all known genetic defects by DNA test or pedigree. All bulls tested negative for PI BVD.

TERMS AND CONDITIONS: These cattle sell under the terms and conditions of the American Angus Association.

FIRST YEAR BREEDING SEASON GUARANTEE

Lisco/M Diamond will cover 50 percent of the value of bulls selling for \$3,000 or more if they are injured during their first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls.

Fifty percent of the value of the injured bull, minus one-half salvage value, will be given as credit in a following sale or toward a replacement bull if one is available. Salvage value, if any, will be split equally between Lisco/M Diamond and the buyer. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by Sept. 1, 2023.

Example 1: A \$5,000 bull is injured and will not heal. A credit of \$2,500 minus one-half of any salvage value will be given to the buyer.

Example 2: A \$3,000 bull is injured and will not heal. A credit of \$1,500 minus one-half of any salvage value will be given to the buyer.

Example 3: A \$2,900 bull is injured and will not heal. No credit is given. Buyer retains all salvage value.

THIS GUARANTEE DOES NOT COVER MISMANAGEMENT OR NEGLIGENCE.

S Wrangler 830 is a calving ease Coalition son with a dominating phenotypic presence and a pedigree stacked with performance and maternal patriarchs. Wrangler's dam is double bred to the popular Genex sire, Chisum, who consistently sires muscle, mass and power, while enhancing maternal production. Wrangler was retained from his calf crop by Spickler South, and an interest was later sold to M Diamond Angus, WY. He has been used successfully on a large number of both registered and commercial heifers. Wrangler himself is a very good structured, exceptionally quiet bull, with a poise and presence about himself that further separates him as an elite herd bull. He is seeing heavy use at both M Diamond and Spickler South. The consistency and quality he sired in his first calf crop has him marked early as an elite producing sire. Leased to Beef 360. **16 SONS SELL!**

Coalition's ability to sire like phenotype is uncanny. The sons he sires are consistently good hiped, expressively muscled, correct in their structure and rich in Angus breed character. More impactful than his sons will be the legacy he leaves through his daughters. With the backing of his picturesque and powerful dam, Erelite 109Z, he consistently passes on her exquisite phenotype, refined teats, and well attached udder. Our Coalition daughters are the kind to build a program around. They are herd builders, carrying unparalleled maternal strength with enough muscle, power, and phenotype to thrive across all facets of the beef industry. **9 SONS SELL!**

What can you say about Grand Finale! He did it the old fashioned way, he earned it. He was the high selling bull in our 2015 sale at \$13,000. Produced from a perfect pathfinder dam, Finale has the highest 205 day weight ever at Lisco Angus at 835#. Females in production have perfect well balanced udders, and the bulls are phenotypic standouts and will push down the scale. He is the complete package. **18 SONS SELL!**

LOT 6

MARCYS 13 ETHELDA E 15-3 DAM TO LOTS 5, 6, 9, 31, 32, & 62

Marcys 13 Ethelda E 15-3 was selected as the top selling cow of the 2017 Marcy Female Sale and has since went on to prove herself as an elite cow. Garnering over \$200,000 in progeny sales she records a progeny weaning ratio of 105 on four natural calves along with progeny IMF and ribeye ratios of 103 on 35 head with 28 daughters in production who post a collective progeny weaning ratio of 102. 15-3 is a powerful female with a ton of performance and end product value. She has proven to be the type of cow that you want to build a herd around. She is still being used very heavily in the M Diamond Angus ET program. She is proving to produce very attractive cattle with lots of rib, a long hip, and plenty of muscle while being exceptional for both IMF and ribeye area. However, the best part of 15-3 are the females in production. They are feminine, functional, clean fronted individuals with a ton of capacity and exceptional udder quality. They flat out produce as is reflected by their collective progeny weaning ratio of 102.

Birth Weight: **ET** | 205 Weight: **ET** | Calving Ease: ****** | Dam's Production: **7@107**

This set of ET calves have been a lot of fun to watch grow. Their Dam 83-0 is a cow who earned her way to getting flushed the hard way. She is a Pathfinder cow who records 7@107 for weaning and 3 @ 129 for IMF. After getting a few of her daughters and grand-daughters in production and watching them produce as well we decided to flush her. This flush by the great female producing sire Coalition has produced just what we anticipated. These bulls are long made bulls with sufficient rib, a long hip, thick top, and lots of bone. Maternally these bulls should be as good as anything you can find. Make sure to look this set of brothers up on sale day.

Birth Weight: **ET** | 205 Weight: **ET** | Calving Ease: ****** | Dam's Production: **4@105**

These calves are the product of a very successful flush. The Dam of these calves is the great 15-3 cow who needs no introduction. This cow has been used very successfully for many years in the M Diamond herd and is still producing embryos to this day. She has 99 recorded progeny with the Angus Association and that number continues to grow. Mating this proven cow with Grand Finale who also has made a name for himself through proven daughters is very exciting. The explosive growth that Grand Finale throws in not only his progeny but the progeny of his daughters is remarkable. You won't want to miss these good bulls!

Birth Weight: **96** | 205 Weight: **703** | Calving Ease: | Dam's Production: **4@109**

This bull is a stud! He has that herd bull presence every time you walk in the pen. He is a very thick made and long bodied bull that stands on an impeccable set feet and legs. His dam is the great 109Z. His sire was the feature and high selling lot in the 2020 Coleman Angus Female sale where he sold for \$225,000. A solid herd sire candidate here!

LOT 20

U2 ERELITE 109Z DAM TO LOTS 14, 20, 56, 65, & 91

The dam of "Coalition" is a unique blend of massive power and exquisite femininity along with an udder quality and structural soundness that is beyond compare. She is touted by U2 Ranch as "the most influential cow to walk their pastures". We agree! U2 Erelite 109Z epitomizes what we envision as the "perfect" angus cow. 109Z has natural progeny weaning and yearling ratios of 4@109 and 3@113 respectively.

We have been looking for this cow ever since we entered the registered Angus business 30 years ago. When the opportunity came to own her, we were determined to bring her to Wyoming thus making her the \$140,000 high seller of the historic U2 Ranch Complete Dispersion. We are offering 4 sons by KG Justified 3023 in our 2023 sale. Stay tuned for many more progeny from multiple matings in upcoming sales!

Co-owned with Spickler Ranch South.

LOT 31

These progeny are the product of another very successful flush. Once again out of the great 15-3 cow who can't be talked about enough. Combining Wrangler with 15-3 is extremely exciting from the maternal side of things. I believe the females produced from this mating are destined for greatness and the progeny of these bulls will be nothing short of that. These bulls have plenty of muscle and the cattle are going to perform extremely well. A very balanced set of bulls who I am very excited about.

LOT 47

This bull is out of a second generation Pathfinder cow by Cornerstone who has produced a good one every year. She is a touch bigger framed cow but continues to get bred back AI year after year. Ozzie is a bull whose progeny we have seen perform extremely well. This bull is no exception and has a pile of performance. We are very anxious to calve out the first daughters of Ozzie as they are some of the best replacements heifers in the pen.

This bull was a stand out through weaning and boasted one of our top weaning weights. He is out of another Pathfinder cow with a phenomenal udder. Spur 73-9 is a bull we purchased from Marcys and Al'ed quite a few commercial cows to. After being very impressed with the progeny in the commercial herd we decided to use him in the registered herd.

Birth Weight: ET | 205 Weight: 676 | Calving Ease: * | Dam's Production: 4@105

These progeny are the product of another very successful flush. Once again out of the great 15-3 cow who can't be talked about enough. Combining Wrangler with 15-3 is extremely exciting from the maternal side of things. I believe the females produced from this mating are destined for greatness and the progeny of these bulls will be nothing short of that. These bulls have plenty of muscle and the cattle are going to perform extremely well. A very balanced set of bulls who I am very excited about.

These bulls are out of the great 578 cow who we were very excited to add to our herd and donor pen in 2022. She records 5 @ 109 for weaning and 5 @ 108 for yearling. These bulls are full siblings to a herd sire purchased by Lisco Angus in the 2023 Marcy Livestock bull sale as well as the top selling bred heifer in the 2024 Marcy Livestock bull sale. A very exciting mating out of a cow who has an exciting future at M Diamond Angus.

2024 GROW SAFE

WHY FEED EFFICIENCY DATA?

At M Diamond Angus we believe the most economically relevant trait in the beef industry is feed efficiency. Feed efficiency is described as being moderately heritable. It is expected to have a 25% to 30% chance of being passed on to the next generation. Therefore, we believe that we need to put selection pressure on this trait. By doing so we can create more feed efficient cattle. For this reason we decided that we needed to find a way to obtain feed efficiency data on the genetics that we are providing our customers.

THE FEED TEST EXPLAINED:

The summer bulls were tested using a GrowSafe testing facility for 90 days. A growing diet was fed, consisting of cracked corn, ground alfalfa hay, corn silage, and protein supplement. The ration was formulated for an estimated daily gain of 3.25 lb/day. Individual weight gain and feed intakes were collected on each bull. The following calculations were measured:

Average Daily Gain (ADG) – Total weight gain divided by 90 days.

RFI – Residual Feed Intake. RFI is the preferred method of evaluating efficiency in seedstock animals, because it is an efficiency measurement that adjusts for the size of the animal. Using traditional feed efficiency measurements (to select cattle) would cause you to indirectly select for larger animal size because larger frame animals tend to be more efficient. RFI is a feed efficiency index independent of animal size. RFI numbers refer to the comparison between actual feed intake vs. expected feed intake (based on the ration fed and animal size). A negative number is preferable, indicating a more efficient animal that consumed less feed than predicted. Positive RFI indicate a less efficient animal that consumed more feed than expected.

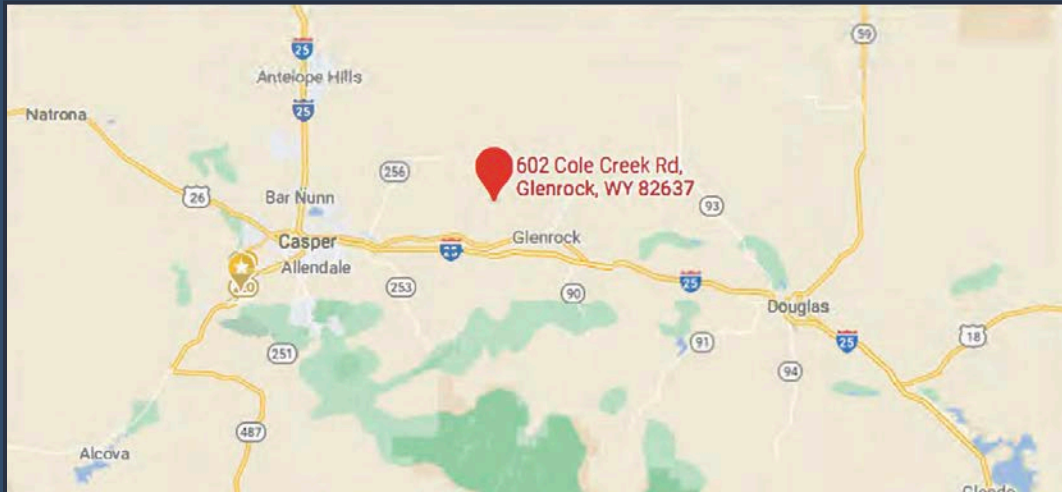

Feed:Gain – A measurement of feed efficiency, listed as the lbs of feed required to achieve 1 lb of weight gain for each bull. This is calculated using the daily feed intake and ADG for each bull. A lower number indicates a more efficient bull (less feed required to achieve weight gain).

SUMMER BULLS GROWSAFE TEST RESULTS: *WILL BE AVAILABLE SALE DAY VIA SUPPLEMENT SHEET*

SALE LOCATION | M DIAMOND ANGUS RANCH

602 COLE CREEK RD | GLENROCK, WV 82637

***LOCATION CAN NOT BE ACCESSED FROM I-25
PLEASE SEE DIRECTIONS BELOW***

FROM CASPER

From the east side of Casper (Hat Six Rd) get on US Highway 20-26 (old Glenrock Highway). Head east on the old Glenrock Hwy for approximately 13 miles. Turn left on County Road 22 (aka Cole Creek Rd) and go north for 6 miles. Turn right at the “Boner” ranch sign and follow road into ranch and sale facility.

FROM GLENROCK

From the 4-way stop intersection in Glenrock head west towards Casper on 20-26 (old Glenrock Highway) for approximately 5.5 miles. Turn right on County Road 22 (aka Cole Creek Rd). Go north for 6 miles. Turn right at the “Boner” ranch sign and follow road into ranch and sale facility.

NOTE - You will pass the turn off to Brad and Laurie Boner’s house at 3 miles - keep going north for 3 more miles.

DO NOT USE GOOGLE MAPS FOR DIRECTIONS. YOU WILL BE LOST!!

S WRANGLER 830 x M DIAMOND ERICA 049 (LISCO GRAND FINALE)

Ranahan - a top ranch hand; a good all-around cowboy! Fitting for this outstanding Wrangler son. Ranahan is the complete package - deep bodied, heavy muscled, stout structured with tremendous feet and a commanding herdbull presence! Add in calving ease, performance, maternal predictability, carcass value and the Coalition disposition and you have the ideal all-around cowboy! With a pedigree outcross to much of today's mainstream genetics, Ranahan is an easy Sire to use - and for all the right reasons.

*Ranahan progeny will be features of the
