

16TH ANNUAL
PRODUCTION SALE
APRIL 17, 2024

BELFIELD, ND

OPENAANGUS.COM

WELCOME CATTLEMAN!

Welcome to our 16th Annual production sale. Due to the age of our bulls, we decided to host a sale later in the spring after 15 years of hosting a great joint sale with Heart River Ranch in March. We feel this will allow extra time for our bulls to grow, mature and be closer to a year of age on sale day. Our sale day offering represents the top end of the bulls born in 2023.

While we've appreciated the higher cattle market in recent months, it is on the forefront of our mind that a holistic approach to the entire operation is necessary to be sustainable in the long term. This includes excellent grass management, keeping ever rising input costs in check, managing well in the poor years so we can thrive in the good years, and of course keeping the cowherd on course to help us achieve these objectives. The type of cow we strive for is a moderate framed, easing fleshing female, that has an excellent udder, feet and legs. We like to see proven genetics in pedigrees and especially like to see good proven cows showing up on both sides of the pedigree. While breeding good cattle is a challenge that any seedstock producer can relate to, we feel using proven, reliable genetics can help us generate consistency, predictability, longevity, and fertility. We will continue to strive for proven pedigrees stacked up to achieve these outcomes.

This year marks 27 years since we started our purebred operation from a small group of heifers purchased out of Idaho. We are grateful to all the customers that have continued to support us year after year for all this time. It is truly a pleasure to get to work with you. It is our hope that the genetics we produce continue to serve you by creating cowherds that keep you profitable for years to come. We invite you to come look at the bulls anytime prior to sale day. The herd sires that were used naturally are available for viewing at the feedlot in Belfield all winter. The cowherd is located NE of Wibaux approximately 20 miles and is available for viewing anytime as well.

- Jim, Lynn and the entire Open A crew

APRIL 17, 2024

BELFIELD, ND

LIABILITY: All persons who attend the sale do so at their own risk and Open A Angus, their agents or anyone associated with Open A Angus assume no liability, legal or otherwise, for any accidents which may occur.

LUNCH: There will be a complimentary lunch provided at noon on sale day.

SALE LOCATION: Open A Angus Feedlot three miles south of Belfield, ND on US Hwy 85. Turn west on 40th St SW and go ½ mile.

HEALTH PROGRAM: Bulls were given Inforce 3, Vision 7, Oneshot BVD, and Dectomax Injectable at branding in late May. Inforce 3, Oneshot BVD, Vision 7 w/ Somnus at preconditioning in September. Bovishield Gold One Shot, Somubac, Dectomax Injectable, and Valbazen at weaning on October 24th. They will be given Bovishield Gold FP 5 VL5 at the time of semen testing.

SEMEN EVALUATION: All bulls will pass a breeding soundness exam performed by Wibaux Vet Clinic, prior to delivery.

VOLUME DISCOUNTS: We will discount purchases of multiple bulls starting at 3% on 3 bulls capped at 5% on 5 bulls or more.

TERMS AND CONDITIONS: Bulls sell under the standard terms and conditions of the American Angus Association. Terms of the sale are cash. Full payment is due sale day. For purchases made through DVAuction, please remit Payment to: Open A Angus PO Box 556, Medora, ND 58645

DELIVERY: We will start delivering bulls April 20th. We offer free delivery within 300 miles. Anything above 300 miles we will work with the buyer to meet or provide delivery at cost.

ANNOUNCEMENTS: Any announcements made from the block on sale day take precedence over any information printed in this catalog.

GUARANTEE: All bulls selling are guaranteed breeders. Bulls sell with a 90-day breeding season guarantee. You will receive full credit minus a fixed salvage value of \$1500 applicable towards the sale the following year. If a suitable replacement is available, that can be an option as well. There is NO GUARENTEE on animals that are not cared for in alignment with good animal husbandry practices.

SIGHT UNSEEN GUARANTEE: If you are unable to attend the sale, but wish to place a bid, call Tellan or Dey. We will also have people available on sale day to handle phone bids. We will handle your bid with honesty and integrity. Your complete satisfaction is guaranteed. You can also bid online at www.dvauction.com

RETAINED INTEREST: Open A Angus reserves ½ revenue sharing semen interest on every lot in the sale. Full possession and full salvage value sells on every bull.

BULL DEVELOPMENT: The bulls have been developed without creep feed or any supplements from birth to weaning aside from free choice salt, mineral, grass and mother's milk. They were weaned the end of October and brought into our feedlot and put on a high roughage ration consisting of chopped hay, silage, distillers, and whole corn. They have been fed to target a 2.5-3# gain.

OPEN A CREW

As with every ranching community, there are countless individuals, neighbors and friends who help to make things work on an annual basis. We value all of the time and effort put in to give us the extra boost when the workload gets heavy!

Tellan And Kayla Steffan Family

Tellan Serves as General Manager of Open A keeping the business side of the ranch going throughout the year. Kayla manages the marketing and PR piece for us.

Dey and Jen Obrigewitch Family

Dey and Jen have been with Open A since 2014. They manage the Kramer Ranch portion of Open A, Dey is also an integral part of genetic selection on the registered cowherd. Their children have been a huge asset as well doing everything involved in the day-to-day operations from calving, moving cows, checking water, fencing and haying. They are greatly appreciated.

Tom and Becky Scheef

Tom and Becky have been with Open A since 2014. They manage the Franks Creek Ranch north of Belfield. Tom is our go to guy for anything that needs hauled on the operation.

Ty Janda

Ty has been with Open A for a little over a year. Ty takes care of the daily duties of the feedlot while we have cattle there and helps out on the ranches where he is needed the rest of the time.

Chance and Arielle Schneider Family

Chance and Arielle came to Open A in June of 2023. They oversee the State Line Ranch. We are happy to have them on board.

Ryan and Kalie Schmeltzer Family

Ryan and Kalie started in August of 2023. They care for the Dahl Ranch piece of Open A and oversee the registered cowherd. We are grateful to have them on the team.

Beast was used naturally until he was 9 years old in multi sire pastures all of his life. He had great feet coupled with a calm demeanor. He was a favorite of everyone who toured the ranch. The daughters in production have really nice udders and that brood cow look. He is a full brother to OCC Big Time 746Z. 13 sons sell

Faithful was selected out of the OCC sale due to his stacked, highly maternal proven pedigree. Phenotypically, he was well balanced, had a great disposition and had excellent foot and leg structure. They had a little more performance and mature height than some of the other genetics we have used. 2 sons sell

Deadline was used naturally until he was 7 years old in a multisire pasture. His sons have been well received in past sales and we have a number of daughters retained in the herd today. His offspring tend to be soft made with added volume. His bulls calves have been appreciated for thier length of body and thickness. 3 sons sell

Thumper is a go to to add thickness and power. Typically a bit more moderate in frame but very useful cattle. The daughters we have in production are easy fleshing cows with above average volume and capacity.

This will be the last calf crop out of Fortress as we lost him in the fall of 2022. He passed on length and style onto his offspring that is quickly recognizable. He stood on a great foot and traveled like a cat. We appreciate the double shot of Jet Stream 825J in his pedigree as well. He adds a bit of performance — coupled with maintaining the maternal package in a nice balance.

Nightwatch was used successfully on heifers for a number of years and we have 2 sons selling in the sale this year.

Long bodied, clean made Grand Marshall son backed by a nice blend of maternal genetics.

2023 4-H ANIMALS

WE PURCHASED FOR PREMIUM!

We truly believe that the youth in our rural, small-town communities are the future leaders that will shape the landscape of these same communities moving forward. We know and see firsthand how rural America is the heartbeat that keeps nations fed and economies strong. With a strong sense of responsibility to our local area, we are proud to support our local 4-H program through participation in the premium sale as well as hosting field days for Dickinson State University grazing management classes.

HOME ON THE RANGE

2024 marks the 15th year that Open A has collaborated with Home on the Range supporting their agriculture program that is the backbone of their rehabilitation program. We took the opportunity to come along side them with the start and development of their current foundation cowherd and have had the opportunity to incorporate an ongoing Embryo Transfer program on an annual basis. They utilize the opportunity to educate the kids on animal reproduction and genetics by putting our embryos into their commercial cows. They calve out and raise the calves until weaning when we purchase the calves back from them for our registered herd. Lot 7 in this sale is the result of this partnership.

Home On The Range is a therapeutic and working cattle ranch for boys and girls, ages 12-19. It is located in western North Dakota near the small town of Sentinel Butte. The children live in a clean and wholesome environment and learn about the ranch and farm lifestyle. The children help haul square hay bales, feed the livestock, repair fences, move cattle to pastures on the ranch, and assist in the bovine embryo transfer and calving. The kids can go horseback riding and learn how to drive a team of mules. All of this ranch and working skills help the children when they are discharged from HOTR by teaching them responsibility, accountability, teamwork, leadership, completing a job, and reporting to their work supervisor.

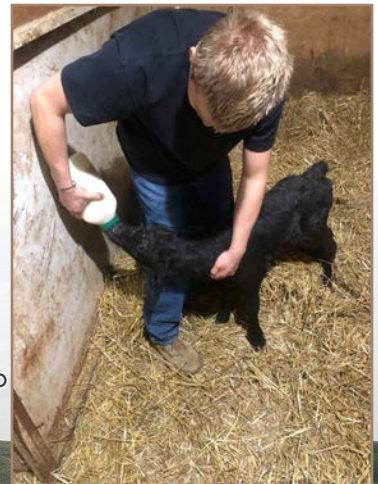

The youth live at Home On The Range for 3-6 months. The children have experienced or witnessed trauma that most people can't imagine. During that time period, they attend school (when it is in session), attend a Chapel service on a regular basis, participate in on-site and off-campus recreational activities, and engage in animal assisted or adventure therapy.

Home On The Range utilizes the natural resources of the land, buildings, and animals to teach the children about new life skills, how to develop positive and trusting relationship, and feel safe. Each of the therapeutic groups are "experiential" and hands-on therapy. The children don't realize they are participating in therapy. They are learning to face life challenge's and how to handle their behavior and emotions while in the presence of professional staff; thereby internalizing what they learn so they can handle different situations when they return to their homes or communities.

"Before I came to HOTR, I had no idea what a farm life was like. I never had been around a horse before so that was a big change. When HOTR decided to put me in horsemanship I was scared out of my mind. I am now a very skilled rider. Every single experience I made in the arena affected me positively. At HOTR we have different groups and I've been in every single horse group each slightly different. Sammy and I have a strong bond and he's very special to me. I understand him and he understands me. He's very gentle and super caring and usually I never struggle with him. He has taught me a lot." HOTR child

"There are lots of groups to help you grow, learn, recover and overcome traumas. Groups with the horses have helped me learn about forming relationships and have even showed me something about myself. There's a group called Ending the Game that teaches you about all sorts of trafficking and coercion. I have gained better relationships with girls around me and have gotten more comfortable talking about hard things I went through." HOTR girl

Home On The Range relies on many generous donations and pledges to sustain therapeutic services, spiritual development, and recreational opportunities. Home On The Range's goal is to help children by giving them healing, help, hope - to put them "back in the saddle."

THE BULLS YOU NEED FOR THE COWS YOU'VE ALWAYS WANTED!

With the average age of our nation's rancher on the rise and an annual exodus of producers leaving the ag space, we feel an obligation to raise genetics that are extremely well adapted to the northern great plains, converting grass and milk into pounds on calves and leaving our customers with cows that have lower maintenance requirements than most modern day conventional genetics. Our hope is that the cattle we produce help to keep people on the land and allow the opportunity for young people to be able to afford to come back to the family ranch. We approach our operation in a holistic way that includes blending genetics that fit our environment, grass management through proper stock densities and timing of grazing as well as proper periods of rest.

THANK YOU FOR JOINING US AT OUR 16TH ANNUAL PRODUCTION SALE

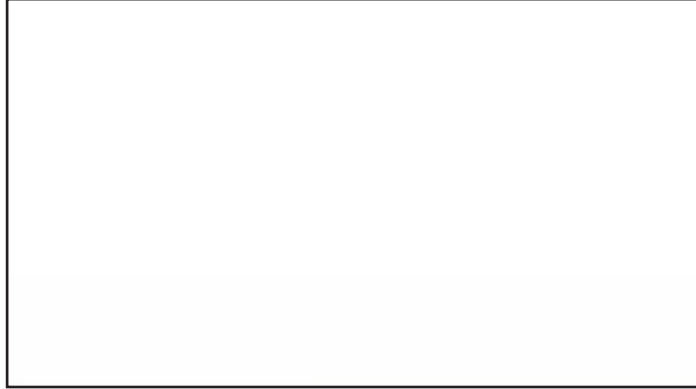

WE HOPE TO SEE YOU
NEXT YEAR!
