*Offering bulls,
selling
cow families*

Snowy Mountain Angus

Dear Fellow Cattlebreeders:

We would like to take this opportunity to extend an invitation to our 9th Annual Bull Sale, which will be held on Tuesday March 19, 2024 at the Lewistown Livestock Auction Yards, starting at 1:00 pm. We hope to see you there!

This pen of bulls has been selected as our top end bulls that provide optimal calving ease, efficient gain, eye appeal, and phenomenal growth. This past fall, we culled harder on the bulls than ever before creating a solid set for the sale. As you look through this catalog, you will find some exciting new outcross genetics to compliment your existing herds as well as some sires you've seen come through the catalog in the past.

This group of bulls have been fed out by Jeremy Grove of Porter Ridge Livestock, LLC located near Moccasin, MT again this year. We invite you to stop by anytime and check out this great pen of bulls. If you have any questions or need information, please feel free to contact me at any time.

2023 blessed us in the Central Montana area. After the last couple of years of drought and just sheer exhaustion throughout the cattle industry, we couldn't tell if we just lowered the bar or if Mother Nature was finally cutting us a break. I truly believe we were finally given a break and many blessings. We had beautiful, lush green grass deep into the fall and were left with plenty of feed going into the winter for the first time in several years.

The cows weaned off a super nice set of calves this past fall that I had absolutely no complaints about. They had the deck stacked in their favor for the first time in a few years and it gave us the opportunity to cull a little harder than we usually do and retain some top-notch females for the future. The bulls hit the ground running like they normally do at Jeremy's feedlot. This set of bulls is a very heavily muscled group and I am completely confident they will walk into the ring on sale day packing plenty of flesh to stay in shape during their first breeding season, without being too fat to get the job done.

Please join us for lunch starting at noon at Lewistown Livestock Yards. Thank you for your time and consideration and we look forward to seeing you at the sale!

Theresa Abegglen, Snowy Mountain Angus
406-366-0292 • 406-374-2222 • ffathersal@yahoo.com

Welcome to our 9th annual bull sale! It's hard to believe it's this time of year again and that the green grass will soon be growing! Every year, we say the same thing, but we do feel so incredibly blessed to be in this industry. We are proud to be serving all of our customers and are so appreciative of your steadfast support to our program. We continue to have cattle scattered throughout, but are so thankful for each and every lease opportunity and every day we can continue to raise our children in this amazing way-of-life. With summer pasture not available until June, we made the decision to move our calving date back several weeks; trying to navigate the conflict with our AI schedule and putting cows on the truck.

We are confident in our genetics and the quality of our cattle. There is a lot to be said of their performance, especially in the adverse conditions of the past few years. 2023 was a godsend of a year with moisture and "manageable" hoppers. These boys were fed out at our home feedlot again this year and were allowed free-choice grass/alfalfa hay as well as being hand-fed daily (most of the time by five little helpers and a pack of dogs in tow) with a B-15 amino pellet from Hubbard feeds. The docility is very present! We couldn't be more pleased with their performance and growth. Stop by anytime you want to walk through the bulls or just come say hello. Again your feedback is extremely valuable to our program and our success. We look forward to seeing you sale day!

JR, Katie, Bodie, Nash, Oakley, Blaze & Kort Lund

Sale Order

Bulls will sell in catalog order

EPDs

EPDs are current as of 2/19/2024. Updated EPDs can be viewed at www.Angus.org

Terms and Conditions

All cattle sell under the terms and conditions of the American Angus Association. Terms of the sale are cash on sale day, unless prior arrangements have been made. Announcements made the day of the sale take precedence over all the printed information.

Delivery

We are offering free deliver on all bulls up to 300 miles with a total purchase of \$3000.00 or more. The balance of the distance will be at a cost. Bulls will be delivered starting anytime after the sale at a convenient time for both parties, but arrangements must be made before April 15th.

We are also offering a \$50 credit if you pick your bull up the day of the sale.

Sight-Unseen Purchases

If you are unable to attend, but wish to place a bid, call any of the sale day phones. Your satisfaction is guaranteed. Our sale will be broadcast live on DVAuction.com. Please call Jay Rost at 406-978-2124 for auction information. See page 4.

This sale will be broadcast live on the internet.

1st Year Guarantee

We are guaranteeing our bulls for the first breeding season for any bull purchased over \$3000. A breeding season is defined as the 90-day period following the first turnout of the bull. If a replacement bull is available, he will be provided or if the buyer prefers, credit toward one bull will be given in the following sale, less salvage value of the injured bull. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage.

Registrations

Transferred on request of buyer.

Retained Interest

All consignors will retain 1/3 semen interest in all bulls sold.

Fertility

Rockin L bulls were fertility tested by Greg Carlson, DVM; Horizon Vet. Snowy Mountain Angus bulls have been tested by Laurie Gaugler. Every bull has tested negative for BVD.

Liability

All persons attending the sale do so at their own risk, legal or otherwise for their own safety or the behavior of the animals. The owner's and sale staff assume no liability for property loss or any accidents that may occur.

Musgrave Feature has been an incredible outcross for this operation. He has a lot of depth and mass to his progeny. He's a very smooth, long, growthy bull that has been extremely consistent in both heifers and bulls. We have his two sets of females in production this year and they have been phenomenal.

Leachman Spur is a bull we picked up from Marlo Leachman of Toston and has been an incredible herd bull for us. He adds a ton of length and growth. This is the second set of calves out of him and they are very consistent. Both heifers and bulls carry a lot of the same traits- length, docility, and phenotypically correct.

We picked up this Counselor son from Cory and Sarah Foss of Pleasant Valley Angus from Sidney, MT. He has done an amazing job for the past three years. He has a ton of calving ease without sacrificing any growth. I have yet to pull any calves out of this bull. His calves have a ton of length and enough depth to pack pounds into their frames. I'm calving out the first set of heifers out of him this year and they are extremely maternal with a ton of capacity.

Heifer bull out of a Patriarch sired cow. Patriarch daughters are off to a great start. L13 has a big spread from Birth to Weaning to Yearling epds. His mom is a very correct made cow with great udders and feet. Patriarch has been the high volume semen sale sire for ABS the past couple years and is stacked with proven genetics on the top and bottom of his pedigree.

Stash has been a nice addition to the AI bulls for us. The calves are deep-sided, moderately framed and have good feet. L04 has all those qualities and comes from an outstanding cow family that keeps producing quality every year.

This is the first bull out of a Counselor son I bought from Cory and Sarah Foss from Pleasant Valley Angus in Sidney. 307 is a big, stout bull out of a beautiful, young Capitalist 4507 daughter. This cow is off to a great start and will hopefully be a cornerstone female on the ranch for years to come. This bull should be extremely calm and high performing- generating some massive pounds in the fall. This cow reports a NR of 2 @ 106!

This bull has been a standout from the start. He's one of the younger bulls in the Snowy Mountain Angus offering, but has had tremendous performance throughout the entire summer and hasn't slowed down on feed at all. He's gaining just under 3.5 pounds per day on feed and has some pretty impressive ratios- 105 weaning ratio and 106 yearling ratio. 341 is out of a great maternal Granite Top Daughter and is one of the calmest cows on the place. That's a trait that should be passed onto this impressive bull.

Lot 7 and Lot 8 have caught our eyes from the get-go! Both come from outstanding cow families with Lot 7 going back to our first Donor cow and the start of the Jenro cow family. Lot 7 has the look and demands attention. He is wide across the back, deep-sided and well muscled all the way around. He is a "bipartisan" bull that is eye appealing; no matter which side of the alley you are on. Half brother to Lots 25, 26 & 27.

Herd sire prospect! The cow family of L60 is tremendous. The maternal grand dam raised great calves until she was 14 years old; including one of our herd sire bulls, Z238. L60 caught our eye as soon as he was put on feed. He is a common sense bull that is above average in 23 different epds. He's sure to catch your eye! Half brother to Lot 28.

305 is out of a beautiful Black Diamond Daughter cow that goes back to SAV Net Worth on the bottom side. He is the only Entice son in the sale and packs a large frame with a ton of muscle. He has a low birthweight at 79 pounds, but his EPD's tell a more telling story. He has a lot of high birthweight in his pedigree and has the potential to throw quite a bit of weight at birth. He would be much better suited on cows. This cow reports a NR of 6 @ 102.

302 is a Leachman Spur son out of a coming 12 year old cow that is still in the herd and still performing. He obviously has some longevity in his background. This cow has solid feet and a great udder after raising calves for more than a decade and doesn't skip a beat year in and year out. This bull would be ideal on cows.

This is the only commercial bull offered by Snowy Mountain Angus and he has blown the doors off from the start. He's out of a 10 year old commercial cow and he is the largest bull in the sale. He has a large frame and packs muscle in all the right places- he's long-bodied, deep sided, and thick across the top. This bull is a cowman's dream right here.

This is our first set of Bond calves. They have plenty of power and are feeding out extremely well. This bull's epds have power wrote all over them! Big time weaning and yearling epds and has a very user friendly Mature Height epd of .5. He is in the top 30% of the breed for dry matter intake epds, but is still going to produce the pounds in the fall. Great cow herd behind this bull. Dam is on the watch list as a future Donor cow.

This is another Leachman Spur son out of Upward 065. This cow goes back to Connealy Capitalist and Dateline 210. This cow family has left imprints on a great deal of the pedigrees in our herd. This cow carries on some amazing maternal traits coupled with docility, which are both traits I would like to think this bull will carry on.

This is the final Counselor grandson in the sale out of a Dash 902 daughter that goes back to capitalist. She carries a more moderate frame with a ton of capacity and that has been passed onto this bull. He's not as framey as some of the bulls in the sale, but packs weight in all the right places. This bull would be best suited for cows.

This is the only Granite Top bull in the sale out of a big Angus Valley Cow that goes back to the same cow family as lot 31. You will see this cow family in a great deal of pedigrees in the herd and they never disappoint. The Granite Top bull has been an amazing female making machine for us. Granite Top cattle are calm temperament, easy fleshing and extremely maternal on the female side. This is bull would work great on heifers or cows.

This past year has been a tough one for the Flint Family of Winnett. Both Gary (father) & Megan (daughter) were diagnosed with different forms of cancer and ongoing treatment. Gary is a remarkable man and an even better trucker. He has many tales to tell! Rain or shine; he has hauled cows for us to the TOP of the mountains since we moved to Winnett. Megan is an Elementary teacher in Miles City and is the head lifeguard at the pool in Winnett. Both are exceptional people and we offer this family our deepest prayers for strength and healing.

As our catalog was going to print, we were deeply saddened to hear of Gary's passing on February 26. He leaves behind his wife; Marge, son; Kevin (Lindsay), daughter; Megan and two grandchildren.

ABOVE AVERAGE GOALS REQUIRE TARGETED BULLS

Aim High

The Targeting the Brand™ logo highlights registered Angus bulls with greater genetic potential to produce calves that meet the most challenging specifications of the *Certified Angus Beef®* brand.

Only 1 in 4 non-parent Angus bulls qualify.

Minimum Genetic Requirements

Marbling EPD (Marb)	+0.65
Dollar Grid Carcass Index (\$G)	+55.0
